

# Alien Landing

## Alien Lands In Elm

### Introduction

Yesterday, when I came into school I saw blue police tape. I was worried. I was scared. When Miss Evans started searching What to do with an alien landing? I got even more scared.

### What I Saw First

The first thing that caught my eye was green slime. It looked like washing up liquid but it smelt like goo. I also saw flipped over tables. I saw six alien letters.

### What I Saw In Elm

There were books everywhere. They were all Horrid Henry. I think they were trying to learn something. There was some sort of projector. Maybe it had a map of their home planet. I also saw a solar system. I think it shows their way home. Beside their ship was some sort of communication device. There were cups in the shape of the solar system.

### Conclusion

Overall these were pieces of evidence. All of them make think aliens are invading. We should put camras in Elm.
